MAY

Welcome to your placement at **May Ward** at St. Peter's Hospital. We hope that you will find your time with us both educational and enjoyable.

This pack has been developed to help prepare for your placement with us, and to form part of your induction.

We suggest you read this as soon as you know are coming to May Ward, print it out and do as much as you can to prepare beforehand. Don't forget to bring it with you on your first day.

Your name	
Mentor Name (s)	
Associate Mentor	
Ward Sister / Manager	
Link Tutor	

Trust Information

Ashford and St. Peter's Hospitals NHS Trust manages two sites - Ashford Hospital in Middlesex and St. Peter's Hospital in Chertsey, Surrey.

The Trust as a whole provides acute hospital services to a large and diverse population, with a catchment of around 450,000 stretching from West Hounslow to Woking across the Boroughs of Hounslow, Spelthorne, Elmbridge, Runnymede and Woking

Philosophy of Care (Medical)

We aim to treat every patient as an individual

The care patients/relatives receive will be safe, provided by skilled healthcare professionals who whilst ensuring patient confidentiality will openly communicate effectively with both patient and relative

The care provided will be of a high standard and provided by professionals in a warm and friendly atmosphere

Religious and cultural beliefs will be promoted by all staff involved in care giving

Advice, support and counselling and health education will be provided to help patients and their families obtain the most from their stay with us in preparation for discharge

Team members

Students will work with and alongside all the members of the nursing team, including Ward Manager, Deputy Sister / Charge Nurse, Senior Staff Nurse, Staff Nurse, Health Care Assistant, Medical Support Worker, and the Ward Clerk.

There are a variety of other healthcare professionals who care for patients on May Ward. These include the Consultants and their medical team, Discharge coordinators, Physiotherapists, Occupational Therapists, Pharmacists, and Dieticians.

Staff Development

Link Nurses

May Ward support the Link Nurse; the role is to ensure that all members of the team are aware of current practice and policies within their designated role. The link attends regular meetings to update their knowledge and also influence future practice through contributing to Trust policy development. You should find out who the Link Nurse is on May Ward for the following specialities:

- Nutrition
- Infection Control
- Wound Care
- Palliative Care
- Continence
- Diabetes
- Minimal Handling
- Mentoring
- Falls

Professional Development

Nursing staff on May are able to undertake continuing professional development in care areas such as acute illness management and caring for patients with various gastroenterological conditions and requiring investigative procedures such as endoscopy, colonoscopy and liver biopsies

Daily Routine

Handover - The start of a shift begins with 'handover' or 'report' of patient information, this promotes continuity of care and allows staff to review and plan care. The use of the IPL for handover is especially important, please check this during handover. Handover sheets must be disposed of in the confidential waste bin at the end of each shift.

All patients are discussed with the nurse in charge and therapists.

Protected Meal times

May Ward has protected meal times at lunch and supper; this time allows the nursing staff to facilitate serving of the meal and to monitor the food consumed.

Referral Criteria/ Admission methods

Patients are admitted to via a number of different routes: from A&E, a booked admission, after attending an outpatient's clinic, discharge from Medical High Dependency Unit or transferred from another hospital.

Visiting Times

3-4:30 pm and 6-8 pm daily

Teaching Opportunities

Variety of clinical skills

Multi-disciplinary meetings

Consultant rounds

Policies & Procedures

You will need to access and read the following policies as part of your induction; they are located on the Hospital Intranet.

Fire, Health and Safety, Medicine Management, Minimal Handling, Infection Control
